

THE COUNTRY VICTUALLER

Salmon Cut of Beef

Spring & Summer Edition 2021

Our Heritage

The Country Victualler was established in Nottinghamshire by Richard Craven-Smith-Milnes and his wife Jane in 1973. After retiring from the industry in 2013, Alison and her father Mike, of Mike Maloney Country Butchers and Bakers Ltd, took over the business which remains as our sister company today.

Alison's father Mike Maloney opened his first butcher's shop in 1979 & is truly passionate about traditional craft butchery methods. He is still very much on hand to provide guidance and technique training for our younger butchers, maintaining a bona fide family feel. We practise whole carcass butchery, so offal and lesser known cuts are readily available keeping our waste to a minimum. We are renowned for producing delicious hams, award-winning pies, pâtés and smoked meats; our team work year-round to bring you the true taste of country dining, using the finest locally sourced ingredients wherever possible. Our team of highly skilled craft butchers & bakers have amassed a wonderful stock of heritage recipes

Our signature product The Alderton™, is a deliciously sweet, succulent ham, steamed then baked. Glazed with marmalade for a unique, yet traditional taste. Hailed by Rick Stein as a food hero, we remain the sole producer of this special ham – it's a favourite with Partridges of Sloane Street, Fortnum & Mason and many other prestigious grocers.

Moving Forward with Meaning

Our commitment to retaining the wonderful history of our produce and continuing to create "Food With Meaning" has led us to develop new ranges for 2021. Most recently gluten free, dairy free and vegetarian options.

We are very keen to continue expanding our collaborations with other artisan producers. We are incredibly proud to have risen to the challenge of 100% environmentally friendly packaging, right down to bubble wrap that can be recycled and reusable ice packs. We do not use Palm Oil in our cold eating pies, where margarine does contain Palm Oil in our Shortcrust pastry, it is sustainably sourced. We consciously strive to reduce our Carbon Footprint by buying locally where possible, but never compromising quality.

At The Country Victualler, we passionately support our customer's ethos around humane farming methods and traceability. We work with integrity, embracing open dialogue between you and us. As a family-run business, our mission is to source the finest artisan products for you to enjoy. We care strongly about where and who we source our meat from. We are Red Tractor certified and are introducing new free-range products, RSPCA certified.

A Warm Welcome from our Managing Director

Spring has sprung & brings with it a welcome hint of hope. The long dark nights are behind us and we are all looking forward to lighter (and warmer) evenings. We have some wonderful collaborations to share with you, some new ranges and all your favourite Country Victualer goodies.

This past year we have all got used to doing a lot more shopping online and putting our trust in someone else to choose the item that goes in our basket. We want you to feel confident and happy that the person here at CV doing the 'choosing' is 100% committed to selecting the perfect product for your order. Our small friendly customer service team are on hand to help you each step of the way.

Our commitment to local farmers, quality produce and environmental issues remain as strong as ever - it's at the heart of what we do. Lastly, I would personally like to thank you, our fantastic customers, for your continued support.

Best wishes to you & your loved ones in 2021!

Ceramics by Kat

West Yorkshire

Ceramics by Kat is a small ceramics business founded by Katherine Ward.

When we approached Kat to design & produce a set of homely tableware items for our 2021 brochure, we welcomed her rustic/contemporary style, which resonated well with the heritage of our brand.

"The pieces commissioned for The Country Victualer were really fun to produce. I decided to use an off-white speckled glaze for this project which was based around a neutral palette with sage green & dusty pink as accent colours, aligning with the Spring/Summer theme."

Holme Valley Woodworks

West Yorkshire

Holme Valley Woodworks is an endeavour by West-Yorkshire based craftsman Joey Holme, producing authentic and functional homeware with materials that are sustainably & locally sourced.

All of his products are handmade from start to finish - taking raw (or 'green') timber to a high lustre - which means every piece is completely unique. Joey also produces bespoke items born from both customer requests & his own designs. We instantly fell in love with his array of bowls & plates which were perfect to display our products.

Bespoke from Belvoir

Our Master Butcher will now be offering his skills and personal recipes to our online customers. With a slightly longer lead time, you can order and enjoy all the seasonal speciality products that are usually only sold from our Belvoir shop. We highly recommend his handmade gourmet sausages, burgers and beautifully presented roasting joints.

Our first bricks and mortar shop opened in The Engine Yard at Belvoir Castle in summer 2018. We had been searching for several years for a property that matched our ethos of conservation & community. The Engine Yard was just perfect, nestled in the Vale of Belvoir with stunning walks, cycle routes and picnic spots aplenty. As part of a community hub of small, artisan shops we have been able to reach out and connect with our customers, tailoring our counters to what they need.

Café Allez! is an independant coffee shop located at Belvoir Castle.

Their story began in 2018 when founders Mark and Claire took Van Henri, their famous Citroen coffee van, to the castle...

Café Allez! take their coffee really seriously; they home-bake many of their cakes and scones, as well as vegan and gluten-free options. Their meat is sourced locally from The Country Victualler (including their legendary sausage rolls!).

The Great Outdoor Adventure

Long summer days make for the best adventures! Get away from the hustle and bustle, pack your picnic basket and head out across the parks and fields. Relax, breathe and enjoy some quality time with family and friends. We have everything you need to create a refined outdoor feast. Succulent whole smoked chickens, award winning pork pies, gourmet scotch eggs and signature sausage rolls to name just a few. A couple of bottles of our prosecco will add a celebratory feel. Treat yourself to one of our cool bags and don't forget to refreeze & reuse the ice packs that come with your order.

To ensure your picnic goes without a hitch, we would suggest remembering a few simple essentials. Pack paper or bamboo plates and cutlery, they are lighter and more environmentally friendly than plastic. Napkins are an absolute must too, with a bottle of water to wash any sticky hands. Don't forget to bring some bags to take your rubbish home with you. Hopefully the sun will be shining, so sun screen is good idea, even with the unreliable British weather. Wherever you picnic make sure you leave it unspoiled, so you can return and enjoy your favourite spot again and again.
